LETTER FROM OUR LEADERS

Dear Endeavor Miami Community,

As we reflect on the previous year, we are deeply appreciative of the transformative impact generated across our entrepreneurial community.

We would like to begin by expressing our gratitude to our entrepreneurs, mentors, investors, partners, board members, supporters, and team members whose input and commitment have helped build not just an entrepreneurial ecosystem, but a movement that multiplies impact. And the impact speaks for itself. Together, you share a belief in the game-changing power of entrepreneurship and the multiplier effect it creates.

To our entrepreneurs, thank you for your ambition, resilience, leadership, and innovation as you build world-class companies. To our mentors, board members, partners, investors, and supporters, thank you for your expertise, trust, and commitment to our mission. And to our team, thank you for your hard work and dedication in helping entrepreneurs reach new levels of success.

Every milestone highlighted in this report represents more than growth in revenue, jobs, or investment. It represents founders with a bold vision to think bigger and operate cross-border businesses, mentors and partners who opened doors, and a community committed to helping entrepreneurs scale their companies globally.

At Endeavor, we believe that entrepreneurship is one of the most powerful forces for economic progress. Through the Endeavor Multiplier Effect, the success of one entrepreneur creates opportunities for many others: strengthening ecosystems, inspiring future founders, and driving innovation far beyond any market. This is what we mean by creating impact elsewhere: turning emerging and underserved markets into thriving, evolving ecosystems.

While we are proud of what we have accomplished together this far, we are even more excited about what lies ahead. Now is the time to double down on supporting entrepreneurs to scale, expanding access to capital, and fostering an environment where innovation thrives. The opportunities before us are significant, and so is our collective ability to create a meaningful, long-term footprint.

Thank you for being part of this journey and for helping us build a stronger, more connected entrepreneurial community; one that continues to multiply success and, most importantly, to pay it forward.

With gratitude,

Ernest Bachrach
